“Image Release”

At most youth functions, pictures or video of our youth may be taken by youth council members or other youth members. Students enjoy seeing these pictures and videos posted in various places, one of which is the youth web page. Since pictures and videos posted on a Website are in a public domain, we request your permission to publish photos in this locale.

I grant my permission for photos of my child to be printed and/or published on a public domain via the Internet.
